

MAMTA MODERN SR. SEC SCHOOL
PLANNER FOR THE MONTH OF APRIL AND MAY
PREP

Circular No: MMS/2017-18/005

Date : 25-03-2017

“Children learn more from what you are than what you teach”.

Although a child learns to talk while at home, in school, continuous interaction and exposure with children of same age group and teachers help them to enhance their communication skills.

The MMS fraternity is all set to strive their best in enhancing the child's analytical skills. Have you ever wondered why most early childhood programs teach children colours and shapes early in the year. Its because color and shape are the two very noticeable attributes of the world around us. These first teachings in schools are basics that your child needs to know before he/she learns the “other basics” of reading, writing and maths. Colours and shapes make up a core part of how we describe things. So let's start this journey hoping that your child has a colourful time that helps in shaping their future and transforming them into beautiful human being.

Shapes Week : 17th April to 21st April

(Children should bring one object related to the shape given for that day)

Date
