

MAMTA MODERN SR SC SCHOOL
NURSERY PLANNER FOR THE MONTH OF JULY

CIRCULAR NO: - MMS/2017-18/19

“One may not be the best, but sure not like the rest”.

We extend a warm welcome to our little angels after a relaxing Summer Break and hope that have come back rejuvenated, high spirited, all set for an enriching experience. Before we learn and know about the different things in life, it is important to know oneself . In the month of April and May the tiny tots had explored the various shapes and colors and now it's time to explore themselves . During the month of July the different parts of the body and the five sense organs along with their functions will be introduce to them through various activities like” complete the face” which they will do with the help of cut-outs”. Parent's child relationship is the foremost relationship in a child's life. The children would be introduced to the word “family”. They will learn about each and every family member and their interdependence and bonding. Through the various activities organized for the same they will realize the importance of the family and learn values like love , sharing , caring and being responsible and respectful .

COMPETITION : 12.07.2017 - My family

(child has to speak few lines on my family with introduction in English.)
