

MAMTA MODERN SR.SEC. SCHOOL
PLANNER FOR THE MONTH OF AUGUST
NURSERY

Circular no :MMS/2017-2018/26

Dear parents

Green is the prime color of the world and that's from where its loveliness arises. In tandem with the curriculum for the month of July " Me and My family" , this month the Green World would be introduced to the children . The tiny tots would know that since Earth is our home , how important it is to keep it clean and green. At Mamta Modern we believe that nature based indoor and outdoor activities play a significant role in enhancing cognitive abilities . Through a plantation drive where in children will plant a sapling , they will be sensitized towards cleaner and greener planet earth, and the attitude to protect and preserve nature will be infused . Through various fun filled activities like folk dances of different states , knowledge will be imparted that India is a diverse nation .This way a sense of pride for their country will be inculcated in the children.
