**'If you love to breathe, plant the trees'**

Our tiny tots last month learnt about the various parts of our body, sense organs and family. This monsoon month children will learn that since the beginning trees have furnished us with two of life's essentials - food and oxygen.

Young children learn best by interacting directly with their environment and their immediate natural world ,so a tree plantation drive will be conducted.

The month of August is also known for 'Independence Day' and 'RakshaBandhan'.To teach children the significance of Independence Day a song competition based on patriotism will be held. Children will be taught the importance of RakshaBandhan festival that ritually celebrates the love and care between brothers and their sisters. Children will learn to make rakhi this month.
