

REPORT

SCIENCE WORKSHOP

Mamta Modern Sr. Sec. School, Vikaspuri conducted a Science workshop on 3 July 2017 on Science and its teaching in class. Ms. Anjali introduced the concept of Science and discussed the scientific method for solving a particular problem.

Many ideas were brought forward to make classroom teaching interactive innovative and interesting.

The highlights of the workshop were the simple yet interesting experiments that could easily be used in the class to make learning interesting.

Scientific aptitude can also be developed in the students by involving them in various activities. It was a good learning experience and the suggested activities proved to be helpful in making science an interesting subject of study.
