

World Elderly Day

The school celebrated World Elderly Day in the primary wing to make the students understand the values of Elders in the family.

Elders play a vital role in the lives of children who through their stories and experiences induce morals in the children. This one day was a tribute given to the elders to acknowledge their role in our lives.

The students created lovely gifts in the form of cards, photo frames and magazine holders for the elders in the family which they'll be presenting to them on 1st October.

The elders in the school viz, the Chairman Sir and the Vice Chairman Sir were presented with these tokens of love by the young children.
