

Mamta Modern Sr. Sec. School

Vikaspuri, New Delhi

16/7/21

Dear Parents

When you know it's time to start something new trust the magic of the new beginning.

Everything that seems new today becomes obsolete once mastered. Even the virtual classes that seemed new and unexplored till the last year are an old story today. In order to be the leader and be in pace with the changing times we must update the learning in us as well as in our students.

AI is the future and Coding its key. Mamta Modern School is gifting the key to the future to its students by introducing Coding for all students from Grade 3 onwards at no additional cost.

According to the New Education Policy, Coding will be a part of the curriculum for grade 6th onwards from the session 2023. Whilst our students reach the grade, they would be better equipped to understand the subject as it would not be anything new for them.

The Coding classes will be age appropriate and we ensure you that it won't be an added burden on the child but a resource to equip them with 21st century skills .

We would feel motivated if the parents show a positive outlook to this and encourage their children towards this new learning .

We will be beginning from the upcoming week that is 19 July 2021. The schedule for the same will be shared with you soon.

Regards

Principal
